

2021 AutoMod Training Schedule

Course Dates

To Be Determined

Course Description

Introduction to AutoMod (Virtual)

Due to the current global pandemic, training classes will be held virtually based on customer demand. The virtual classes will be held in 4-hour blocks to provide flexibility for today's work environment. Once the pandemic is over, we hope to return to face-to-face instruction.

Introduction to AutoMod Training Class Agenda

Chapter #	Description
1	What is simulation?
2	Running a Model
3	Models, Processes and Loads
4	Resources and Queues
5	Conveyors
6	More on the Process System
7	AutoStat

Chapter #	Description
8	Getting Help
9	Path Mover Basics
10	Vehicle Scheduling
11	Order Lists
12	Process System Wrap-up
13	Model Presentation

Customized training classes are also available upon request.

Note: The AutoMod Advanced Class will be scheduled based on customer demand.
